

Tasker works with worship places installations

Tasker has been dealing for several years with many technicians specialized in places of worship Audio and Video installations, realizing laying in both European churches and Mosques in Middle East.

In this specific area White or Transparent cables are highly appreciated, for example for what concern the microphonic installations, the most requested cables are the C114 (2x0,25 mm² spiral shielded, 6,30 mm diameter) and the C128 (2x0,35mm² braided shielded, 6,30 mm diameter).

Many technicians are also asking for Video installations cables as for example the mini coaxial Tasker RGB75 (0,30/1,50/2,80) or for a better resolution, the Tasker RG59 (0,58/3,70/6,10).

Talking about security systems and videocameras the best product we have is the Tasker Komby cable C227, composed of a coaxial cable (0,58/270/4,10) + 2x0,50 mm² controls.

Tasker has a big range of transparent and white flat cables whose sections are between 2x0,35 and 2x2,00 mm² as for example the C100 series or the transparent cables C237 and C238 or C192TS, this last product is a guarantee of high Audio standard and amazing flexibility.

Tasker strives daily to research and develop new products and materials, creating also custom productions, which allow you to have a specific solution for every single customer and to anticipate upcoming technologies, providing new products to meet the needs of today and tomorrow.
