

## Tasker on Stage!

Live events never stop and tasker follows the vogue, expanding its range of speaker cables by inserting new products with section of 4.00 mm<sup>2</sup>:

From the C102 2x4,00 mm, a flat red / black cable with sheath in soft pvc to the bigger tasker C282 a round cable with eight conductors on DIN standard, specific designed for big stage cluster loudspeakers.

..but on the scene you also need lights!

This is the reason why tasker has a full range of DMX cable enriched with the brand new tasker C861, a double shielded digital cable with two pairs 110 Ohm, a AES / EBU, a product that meets the latest developments in the stage lights sector.

All the cable described above are customizable with L.S.Z.H. polymer, polyethylene or polyurethane (PUR) sheath, with or without steel armor for underground installation also in presence of rodents.

Tasker strives daily to research and develop new products and materials, creating also custom productions, which allow you to have a specific solution for every single customer and to anticipate upcoming technologies, providing new products to meet the needs of today and tomorrow.
