WHO WE ARE

OUR HISTORY

Milan S.r.l., a single-member company, owner and founder of Tasker® brand, **was founded in 1977** and headquartered in Cusago, just outside Milan.

For over four decades, the company has been a benchmark in the **production and distribution of high-quality cables and accessories**, designed to meet the specific needs of key sectors such as Audio, Video, Broadcast, Data Networks, Electronics and Industry in general.

Thanks to a constant focus on technological research and the evolution of materials, Tasker has built a solid reputation based on reliability, innovation, and **“Made in Italy”** quality.

MISSION

We aim to offer high-performance, safe and durable cables and accessories that meet the highest expectations in terms of **quality and reliability**. Our goal is to create products that combine **technological innovation and craftsmanship**, always keeping customer value at the forefront.

QUALITY & CERTIFICATIONS

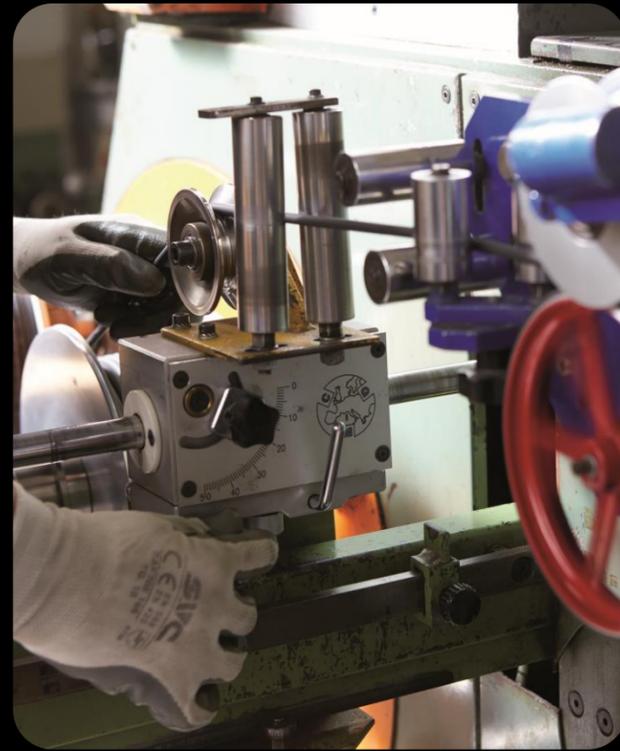

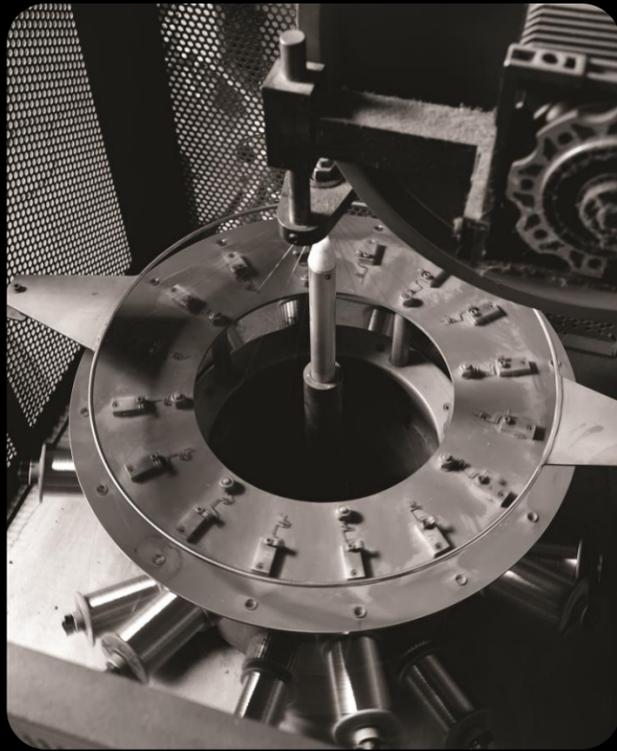

Tasker operates according to the highest quality standards, with **ISO 9001-certified** production and management systems. Each cable and accessory undergoes **rigorous laboratory testing** to ensure optimal performance, durability and safety.

The company also complies with the **RoHS and REACH directives**, confirming its commitment to sustainable and environmentally friendly production.

OUR VALUES

- **Uncompromising "Made in Italy" quality** – a guarantee of reliability and high performance
- **Constant innovation** – continuous research into new technical solutions
- **Wide range** – over 5,000 items, mostly always in stock
- **Reliability** – tested and certified products to ensure consistent performance
- **Customer service** – technical advice and personalized support

tasker[®]

MADE IN ITALY PRODUCTION

Our production area is the **heart of innovation and quality**. Every stage of the process, from raw material selection to final product inspection, is managed with the utmost **care and expertise**.

Thanks to cutting-edge technologies and a team of qualified professionals, we guarantee high standards, operational efficiency and flexibility in the creation of customized solutions.

Production is where ideas, experience and technology come together to create concrete and reliable results.

In addition to our standard production, which includes approximately **5,000 items**, our company stands out for its ability to offer customized solutions, capable of satisfying even the most specific customer requests.

The close collaboration between the production and technical departments allows us to develop customized products, guaranteeing quality, reliability, and high performance.

tasker[®]

SPECIAL PRODUCTION

Our specialty products include composite **"all-in-one" cables**, designed to integrate multiple functions in a single structure, optimizing space and performance.

We also produce cables with special shielding and insulation, available in various technical configurations – **extra-soft PVC, flame-retardant PVC, L.S.Z.H., PE, PUR, CPR, and other advanced materials such as nitrile, TPV, and silicone** – to ensure safety, flexibility, and durability.

Special requests also include **armored, rodent-resistant, friction-resistant or low-loss dielectric gas-injected cables**.

Specialty products require a **minimum order quantity of 2,000 meters** and average delivery times of **approximately 30 working days**.

Each project is handled with the utmost care, from the design phase to final production, to offer customized solutions that combine innovation, quality, and reliability.

WAREHOUSE & LOGISTICS

Our warehouse is the operational heart of the company: a modern and organized facility housing **thousands of items, always in stock**, ready for rapid and efficient shipping.

Thanks to an advanced logistics management system, we constantly monitor every stage – from storage to order preparation – to ensure **precision, speed and reliability** in every delivery.

Each item is carefully managed and tracked with digital tools that ensure **precise inventory check** and dynamic shipment planning. Our logistics network is structured to meet **national and international demands**, guaranteeing reliable delivery times and high quality standards.

Our philosophy is reflected in every detail: **always one step ahead**, ready to respond to market needs with rapid, sustainable, and forward-looking solutions.

COMMERCIAL HEADQUARTER

The Sales Department is the dedicated point of contact for **understanding customer needs** and proposing **customized solutions** that combine innovation, reliability, and quality.

With a listening and personalized approach, our team works every day to offer excellent service and build **strong, lasting relationships**. The Sales Office is a strategic partner capable of interpreting each client's needs, translating them into concrete, high-performance projects.

Thanks to **in-depth industry knowledge** and a proactive approach, we support our clients every step of the way: from **initial consultation** to choosing the most suitable solution, all the way to **after-sales support**, always with the utmost professionalism and attention to detail.

Customer satisfaction is our top priority, which is why we are constantly committed to ensuring high quality standards, timely service, and a partnership based on trust and mutual value.

CABLES

The Tasker range stands out for the **high quality of its cables**, the result of production entirely at our facility and the use of **selected raw materials**.

Every stage of the production process is subjected to rigorous checks to ensure **consistent performance, reliability and durability**.

Each cable is **available in various lengths** and configurations and is managed within our centralized warehouse, always ready for fast and timely shipments. This organization allows us to respond efficiently and flexibly to even the most urgent or customized requests.

To ease product selection, our standard products are presented in dedicated **catalogs divided by application**, accompanied by a constantly updated **"News Brochure"** with the latest innovations in the range.

Audio

For a sound that is always clean and perfect

ACCESSORIES

In addition to cable production, Tasker offers a wide selection of **accessories and complementary components**, including:

- **High-quality connectors**, carefully selected to ensure maximum reliability and performance, including a wide range of **Neutrik** connectors;
- **Preassembled cables** available in various configurations and lengths;
- **Heat-shrink tubing, cable reels, stage boxes and fixing elements**, ideal for the orderly and professional management of cabling systems.

Thanks to this comprehensive offering, we are able to provide integrated and customized solutions, precisely meeting the needs of every application sector.

TASKER LIVE SERIES

A complete range of **assembled cables for musical instruments, microphones, speakers and audio applications**, available in various series and lengths, all handcrafted in Italy with the highest-quality connectors and cables.

These products are designed to capture every nuance of your musical compositions and performances, ensuring impeccably pure signal transmission.

CLASSIC SERIES

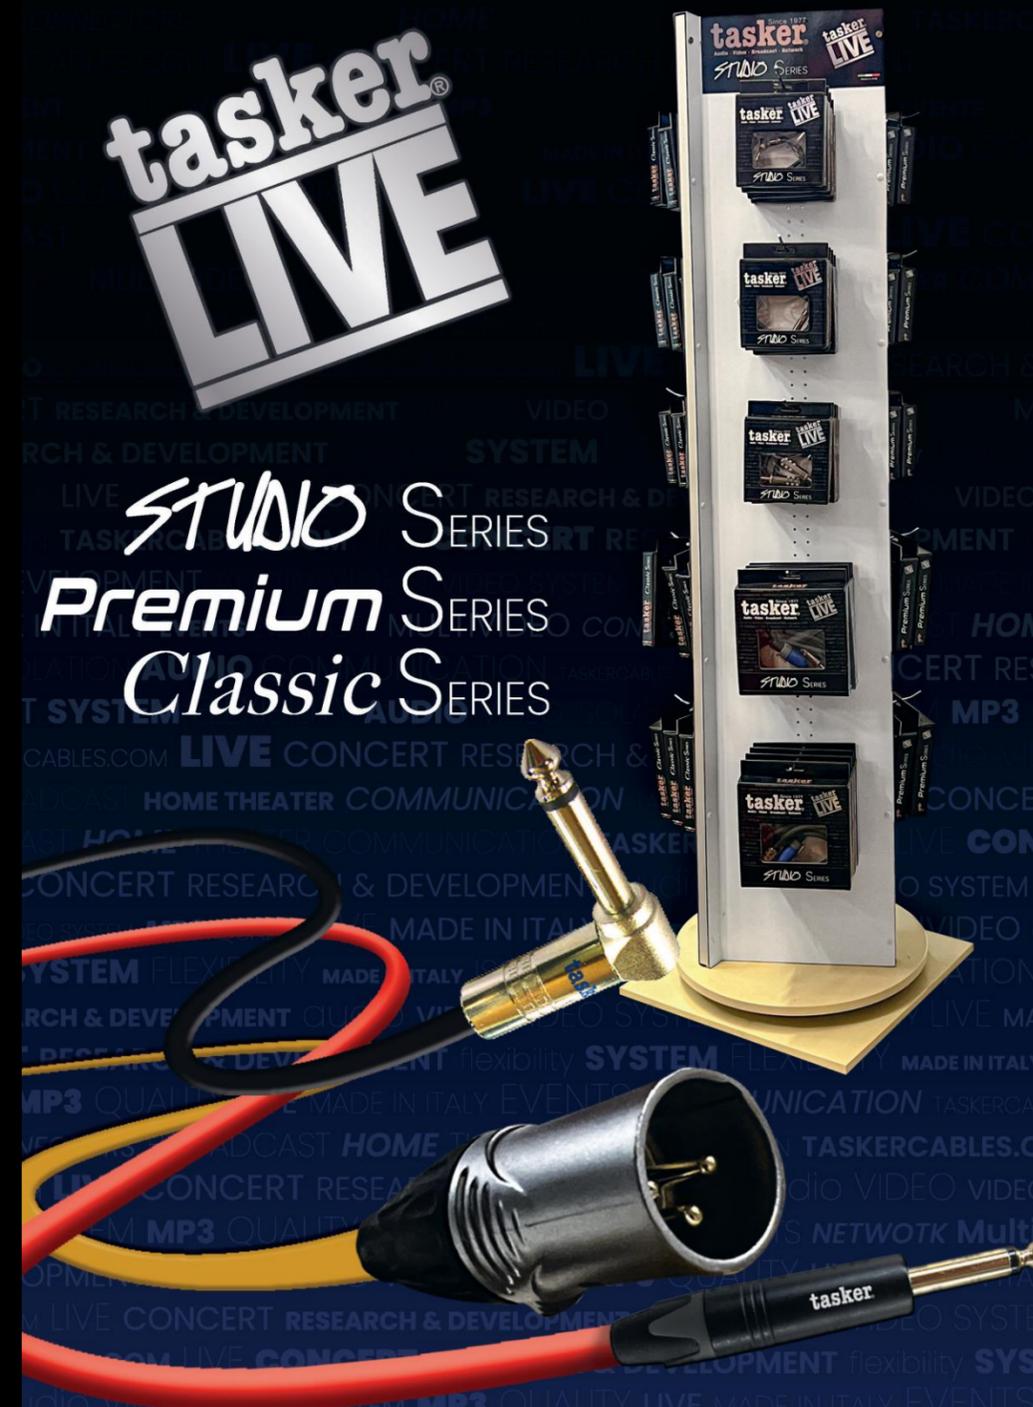

Functional and technically flawless, it is made using **pure O.F.C. copper** cables and offers the possibility of mounting both **Tasker and Neutrik connectors**.

PREMIUM SERIES

For those who want something special, it's made using **pure OFC copper** cables with extremely soft and flexible **specially colored sheaths**. It also features special professional **Tasker connectors with 24K-1.0µ gold-plated contacts**.

STUDIO SERIES

For those who don't want to settle, made using **pure O.F.C. copper** cables and professional **all-metal connectors**.

STAGE BOXES & CABLE DRUMS

Our offering includes complete solutions for every type of installation and setup. With our professional Stage Boxes and Cable Drums, you can count on **robust, reliable and customizable products**, ideal for every need in audio, video, broadcasting and more.

PROFESSIONAL STAGE BOXES

High-strength **aluminum and polyethylene** structures for indoor and outdoor use, customizable with laser markings and numbers. Ideal for wiring multi-pair cables, **DMX and Dante** protocol applications and for wiring multi-core speaker cables. Each stage box can be customized to meet your needs.

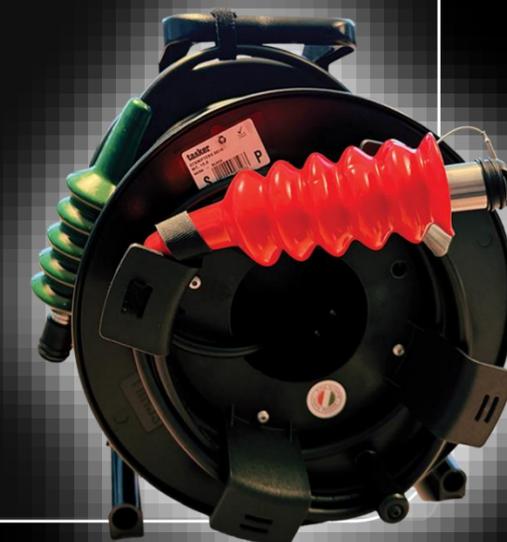

PROFESSIONAL CABLE DRUMS

Made of lightweight and durable thermoplastic polymer, **MADE IN GERMANY**, with integrated handle and supports. Suitable for various working conditions, both indoor and outdoor. Available in various diameters, **from 235 to 450 mm**, all with adjustable clutch.

PROFESSIONAL WIRED CABLE DRUMS

For audio, DMX, video, and broadcast applications, fiber optics, with Tasker cables and **Neutrik** connectors. Also designed for outdoor installations thanks to the robustness of the components.
